OUR SERVICE

We are partnering with the City of Wilson to help you save on your electric bill. City of Wilson residents can save \$5 on their bill each month in the summer with their Load Management Program. This program allows the city to remotely cycle off your air conditioning unit. Typically, you will not notice these changes and can save \$68 a year without loss of comfort. As a new tenant, your system is already equipped with this feature.

**More than 50% of annual energy
costs come from your home's
heating and cooling system**
